Re: Recommendation Letter for Mr. Qiang Li

Dear Sir or Madam,

I am writing this reference at the request of Mr. Qiang Li, who is applying for a Master thesis position at ETH Zurich's Computer Vision Laboratory. Mr. Li has a good overall academic grade record, and he has collected substantial knowledge in Computer Vision and Machine Learning through a series of lectures and a seminar he has taken at our chair (lectures "Machine Learning", "Computer Vision 1", "Computer Vision 2", Seminar "Current Topics in CV + ML"). He plans to make this his area of specialization and also to take his Depth Oral Colloquium on those topics.

Besides his academic experience, Mr. Li has also accumulated important practical experience with Machine Vision approaches working at Siemens AG, where he could put his very good technical skills to practice.

I know the Computer Vision Laboratory at ETH from my own postdoc experience and I believe he will get good supervision there. So, I would highly recommend Mr. Qiang Li to do a Master Thesis there, and I am willing to take over the formal supervisor role.

If you need any additional information, please feel free to contact me.

Sincerely yours,

Dr. sc. techn. Bastian Leibe
